

HEY everyone welcome to another issue of PERNICIOUS. I apologize for the horrific delay in getting this out, but due to a family emergency all activities were thrust into an unexpected state of stagnancy. I hope you all like this issue and as you can see I have finally gone the newsprint route, I want to also announce that the comp cd I have been speaking of for so damn long is almost ready, so I am seeking interested bands, There is no charge to appear on it and your band can receive about 25 or so cds to use as promotion purposes, these will be free and hopefully will be a series of complations.

I would just as always like to thank everybody for the support patience and true metal spirit. Thanks to all the killer bands for the interviews and to all you sick fucks for supporting the death metal scene in general. You all know who you are, thanks again Keep in touch.

VERY LATE REVIEWS*VERY LATE REVIEWS*****

EXHUMATOR sacrificial bleeding and demo 98.

A malignant misagony of death metal, the older tape sacrificial plows through like an army tank through a trailer park, havoc heralding. The new shit curdles the blood, lynching liturgies of frozen buried remnants, spurting offal in great quantity, this is some killer shit to check out.

MISCREANT occult philosophy,

potent pounding death, straight forward and harrowing, well produced and well put together, the memorability of some tracks are lacking a little but still a band to look into has emerged.

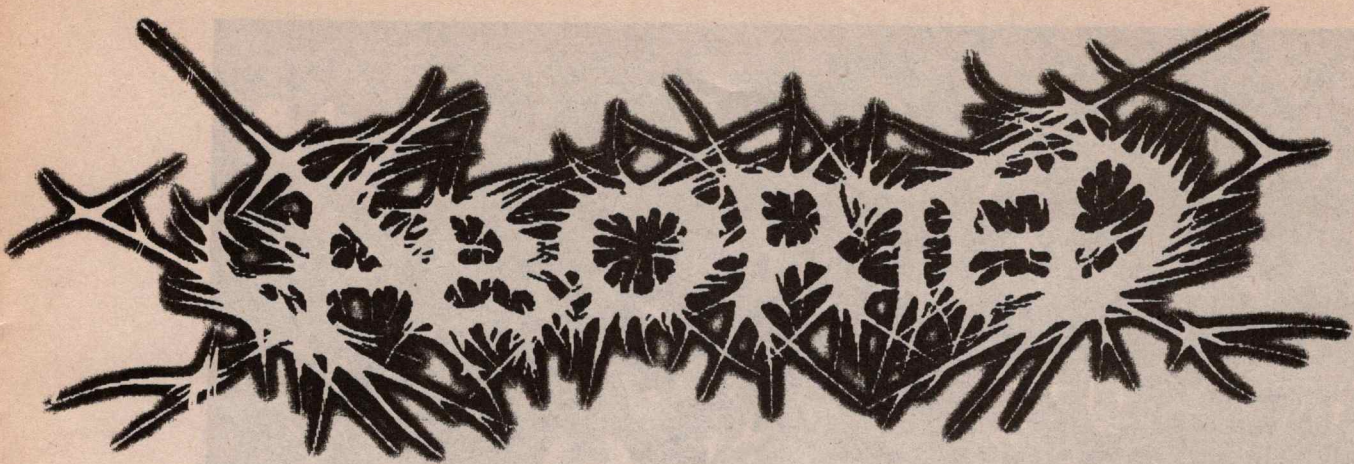

VARATHORN THE LAMENT OF GODS.

I have a lot of respect for this band they have been around for a long time, and still going strong. That is not to say I like the music here though. The song structures are good and such things are in order it is just the damn keyboards that have to go, This is a great example of melodic eerie sounding black metal well played for fans of the genre. I do not like it very much.

LIMITS OF NESCIENT. germs of obsession.

know what?. I am obsessed with this band fucking gorging grating cerebral concaving technical brutal death metal from the great Czech scene. Immaculately exhumed from the blizzard, mandatory.....

Well, by the band name itself you know I will not waste unnecessary time on telling you how sick this band is ,perverse gore death, that mummifies with vorastic impurity, everyone owes it to themselves to pick up a copy of the new cd.

Q**I really loved the tape, seeing only 200 were made, how happy are you with the outcome?. Do you think generally speaking that AGATHOCLES is a major influence in Belgium's bands? How do you view their anti sexist lyrics, What is your opinion on friendly grindcore, do you think that violent music should incorporate violent lyrics, what do you think of the new DEAD INFECTION stuff?.

SVEN***Thanks for the good words man, we started at 100 copies, hoping that we could sell all of them and they were all sold within a week. We did another 100 that also went very quickly. As we started getting more positive reviews in zines, we saw an even greater demand for our stuff. We are very happy with the way things turned out, and the great response we got from the underground, so we thank everyone out there for the support. Yes, AGATHOCLES is a great Belgium band and is an influence in our music, as they are to bands worldwide. I do not have a problem with their lyrics I think that they have great lyrics and just because we have gore and perversion in our lyrics do not make us sexists fuck sexism, most of our lyrics are based on facts and on real life situations such as serial killers and pedophilia etc. I think friendly grind is ok, but I prefer the gore d. I like the Chapter of Accidents! cd from DEAD INFECTION, i do not like some of the newer stuff I think THE Greatest Shits is a bunch of crap.

Q**I also loved the colourful lyrics what is the most unusual color phelgm you have ever spewed, have you ever eaten snot as a kid, How about digging your asshole and smelling your fingers?. What is the most unusual shape you have ever shitted?.

SVEN****The human body has many gre colours indeed,One time I regurgitated black evil blood when we were playing a gig with our huge spikes and painted evil black metal heads.I have of course eaten snot as a kid who hasnt?.Digging my ass? no way.Most unusual shape I have ever shitted would be Patrick Duffy.

Q**Tell us more of your town, Belgium seems nice,how would you rate the quality of life there?Do you find a lot of immigrants from other European countries there or even from South America as is the case in the USA?.

SVEN****Well I live in Beveren liee it is a really quiet boring town,but we have great gigs from timt to time.The quality of life is good for me.Yes I know many immigrants and they are great people I have had problems with some of them but I have also had problems with Belguim people too.There are quite a lot of immigrants in Belgium but I think there are more in the States,hu why the word immigrants,they are people too

Q**T here is a line in the song Organic puzzle about menstrual blood do you also find this as sexy as I do,Have you ever tasted this nectar from the gods?Do you think that childhood experiences play a part in adult sexual attitudes and conduct?What do you prefer ass tits or pussy?If you could tap beer from any one brewery in Belgium which one would it be?.

SVEN****You never tasted Menstrual blood? you wuss yes it is grea I try to have it each morning.Of course childhood experiences ahe an impact on adult sexual conduct what a question though,I am not atherapist.I prefer pussy.Koen prefers tits.JULIPER and DUVEL beer of course.....

QQ*** W ell thanks so much for doing my stupid interview please end up with a full band plug and pottfolio of purulent intentions for the future,thanks again and best wishes to you all,

SVEN*** thank you for the support,They were not stupid to answer just weird I hope I did my job well.For those interested in ABORTED, we have a full cd that will be released by the time you read this so please get in touch,no rip offs ever.This cd contain 9 tracks of pure gore death grind insanity check it out Nude pics are also welcome.WRITE US,

Every time a great band goes astray there is always another quick replacement such is the case with KATAKLYSM, seeing that they have now opted the hardcore route we will now all give praise and thanks to the mighty APALLING SPAWN for providing a non stop assault of hyperblasting brutality.....

Q** what a fucking fucking brutal cd, do any of the band members try to outdo each other as far as composing such monstrous music. What punishment would be dealt to any band member caught listening to HANSON or MARYLIN MANSON?.

PETR***** I have been composing all guitar and bass parts. I do this with Andy Bassist. There will be no punishment freedom is a key to heavens gate, I have heard 1 song of HANSON and I do not mind it, as for M MANSON, it would be too long for my contemplation but essentially it is repulsive.

Q*** Surely you must be proud to have such a great cd was it difficult to compose this? Have you ever had trouble coming up with new material, Do you work better when stressed or relaxed?.

PPETR***** we took pains to do what we could do and I am pleased that you like it. I am not feeling proud as I am concentrating on focusing on new material it is past something that I have done so now I think about the future. It is not difficult to compose, when there is something eager from within that needs to be expressed and you can play some instrument.

I must say that I had 2 composing crises I do not fight it This is something that cannot be fought. I am just waiting for the new blood for composing. I must be fully relaxed and full of v vital energy for my music is a child of vitality and positivity.

Q** how fed up are you with the year 2000 bullshit, do you think it is all peoples imagination, do you agree the media and religion are doing a great job in fooling people and brainwashing the masses?

PETR***** the topic is passing me destiny shall fulfill and we are all in its hands. Everyone should learn and improve themselves try not to be the home of negativity that is all we can do. [editor's note how can such a peaceful laid back guy produce such music????]

Q** have you ever ejaculated in a girls mouth? Do you find that degrading? I would be delighted to have a girl orgasm in my face do you share this desire for wet female nectar??

PETR***** I am sorry but these things are too intimate for me to discuss I do not find that degrading though.

Q** What is this rock club 80 I see on the cd jacket?.Are they supportive of the scene?.If you had the money would you like to have your own label and shit?.How important is the fans input many bands tell me they write according to what feels right for them as artists. Is this also true for you guys?.

PETR**** it is a rock club called INFERNO.it is friendly with all rock and metal bands,we have our rehearsals there.The fans input is not important for me at all,when you compose you must be true to yourself.then your work can be a TRUE expression of yours I could never do music without freedom and I could not do for order the music.

Q**Petr I thank you so much for the time I wish you all the best I know you guys will fucking rule the world keep it up and close up here with final words and band plugs.

PETR***** thank you for the interview and good luck with the zine. You all can get our cds from REPULSE REC and RELAPSE mailorders w we are planning many concerts now and composing a lot of new material however to all be free never lose hope and stay vital.

Here is an interview with an astoundingly morbid and just plain sick death metal band from Italy. Their demo 1998 is a grotesque testament to that fact. It is mandatory that you get this tape and show support for this great band BASTARD SAINTS.....

Q** Your demo is amazing I truly worship this tape. Maybe in your own words you can tell us where this bloodlust comes from?. Have you been exposed to the false ways of religion a lot?. How would you describe morality, isn't it merely somebody's illusion of wrong or right?. How far will you go to fight it?.

ANDREA***** Hi Eamon, I am contented that you like our demo. Yes the hate has turned against religious figures that only gives us more hate and contempt. However my message does not take part to something or bullshit like that. What I write is blood curdling and perverse. The scenes that I represent are exempt from dominant morality. I see the morality as a filthy limit imposed from whoever wants to oppress somebody or something. Not everything is feasible in this world but it must not be a pretext for elect of a determined morality in the thoughts of a person. In my texts the people are treated without morality to make people see the true horror. Scenes of cannibalism, sex torture, and other insane fucking follies from my sick brain. I do not feel like abandoning to me what the majority of faggots likes or not. I do not give a fuck to many assholes who are just disgusting to determine actions. I do not have a happy go lucky mind to conceive happy stupid lyrics. You are right when you say it is someone's illusion many people talk so much on the morality, but after all no one respects what is said.

Q** Have you ever been in real pain?. Ever black out from pain?. Have any songs come out from that?. At what age did you lose your virginity?. Do you remember her?. Were you nervous, Did she let you come inside of her?.

ANDREA****When I was young about from 2 to 10 I got some scars here and there.,but I have never blacked out from pain.Oh well for my virginity there is not so much to write,,I have fucked with girls,I am not really nervous just excited.Unfortunatley here is difficult to find girls,here are not girls that give you to lick, or penetrate her holy pussy with an attitude like ours.We are absolutley not models and we do not have patience to stay behind a fucking bitch that tells you only about flowers or her shitty personal trouble with her old boyfriend or her worthless ass fucker mom.In Italy find only a good brain is few and we are very irritated and have zero patience.Girls that I have fucked, never let me come inside her and not even above,and not even inside an ear.

Q**Tell us a little more about your zine,do you enjoy working on it with others?.Do you ever fight on who is going to be on it?. Name me one release that you loved and hated for 1998?.

ANDREA***** Well the number one of my zine will have been out on January of 1999,the zine is devoted to only the brutal death,grind noise and other generes.If you want a copy you can write me without any shitty IRC s.A grandiose album for 1998 is 'Zombie Apocalypse' from MORTICIA.,but others from INCANTATION.CEPHALIC DEEDS DYING FETUS is difficult to decide which is best.You know there has been many that have done shit and commercialized their extreme music.

Q**Do you prefer rigatoni ala vodka or shrimp scampi?.After a show what food and beverage is consumed the most?.I hear In Italy the wine is great and even kids drink? at what age did you first sample the vino?.Is Barilla pasta really #1 in Italy as the commercial says here in America?.

ANRESA**** i I LIKE the rigatoni but not with vodka,and after a gig we drink lots of beer coke and water.We do not really like wine too much.I have drunk my first vino when I was very young. Perhaps my father will have put it via intravenous injection.Here we all eat Barilla Pasta,anywa, the pasta is pretty much all the same.

Q**How many cpoies of the tape werre pressed?Would you say there has been a better response from regular mail or the E mail? In closing Andrea I thank you very much for your time and I wish you all the best for 1999.Final words to the readers?And do not forget to remind them that Tupac Shakur is really dead and will not be releasing a new album in 1999.....

ANDREA***Well for now we have pressed 300 copies of the demo.But soon we will press some more for sure.E mail has given us excellent results and is great because it is fucking fast and secure.Post offices have ripped me off so many times,sons of bitches.,but, I still adore the normal mail and will not leave it.Thank you for the interview we have already made other BASTARD songs and will put out another demo in 1999,in a generally more professional way.If anyone wants to contact us feel free to write.Remember to DEVOUR THE CHILD BAD MOTHERFUCKERS.....

JUNIOR

Rua Santos Silva
338

CEP 37750-000
MACHADO-MG
BRASIL

Here we have a band that plays brutal but killer spectral death metal, wrathful and evil, very true to the old school and very un-nineties, see what Junior has to say, this guy is a scene veteran, and has been into the scene longer than the age of some Pantera fans, read on....

Q** You have been into the scene for over 12 years now man, what are some cool memories you have from those days?. Any show in particular stick out?, how about some of your friends, are they still into it?. Do you like the "mosh" groove style of the current bands as INTERNAL BLEEDING etc? What do you think of the scene now

JUNIOR*** All the years round we have good memories. Our shows in general have been memorable. Two shows that stick in my mind are Jan 1998 and one in July 1996. Many of my old friends are not into the scene nowadays, but we constantly make new friends through the band. There are many bands nowadays and this makes it hard for a band to get noticed. I like INTERNAL BLEEDING also SUFFOCATION, LAND DYING FETUS etc, generally I think the scene is very good now, however the radicalism is a bad thing because it makes for a weaker union and will weaken the scene. In Brazil especially the scene suffers with this.

Q** Do you prefer hairy pussy or clean shaven pussy?. Do you have any groupies/. What is the closest you have come to killing a person?. How easy is it to get Junior angry, Do you show your anger easily or do you let it boil up inside you then you fucking go ballistic and explode?.

JUNIOR***** I like hairy and clean shaven pussy, headbanger pussy or punk pussy, without discrimination, we have no groupies. Well, I arrived at the conclusion that false and arrogant people are worth killing. For someone to make me hate them is hard to do. If someone persists in perturbing me for a long time then all my internal hate will explode.

Q***Surely you have done a lot of mail, have you ever gotten.. a letter with something unusual in it like say a piece of hair or other strange thing?. On your off days what food or beverage do you partake of most?.

JUNIOR*** I have already recieved a letter with drops of blood on it. I think this man was trying to spread AIDS by the mail. This was very strange but very true. I do not have a preffered food, but, the beverage is beer and more beer.

Q**How are sales for the tape, what in your eyes are some of the better bands coming out of Brazil and Latin America, I have heard a lot of stuff that is amazing such as EMBALMED SOULS, IMPERIAL DOOM, VOMEPTORO, MALEDICTION, SARCASTIC, many more too including of course CORPSEGRINDER....

JUNIOR***WELL the tapes are going well especially in Brazil and some south American countries. Some great bands include PROFANE CREATION, FUNERATUS, MORBIDOOM, DESECRATION, SEVENTH STEEL, MYTHOLICAL COLD TOWERS and many more. These are all great bands and friends of mine.

Q**Well that is all for today I enjoyed your tape and wish you guys the best Keep up the killer work, don't ever change, please close this with your final thoughts and band adverts...

JUNIOR***** We are composing new songs for the next demo, we have a new drummer and we also have recorded a live tape of some of the "Necrorealism tape plus other older material and this will be available soon. I want to say thanks to you and PERNICIOUS zine for the interview. all true headbangers write to us no rip off ever.....

Q**I loved the demo, some of the most amazing shit I have heard from France, how would you rate the French scene now in terms of show attendance demo purchases etc? Is there a particular town or province in France where the scene is strongest?.

PINCENT**** Well France has a little scene, too many bands do the atmospheric and black metal thing as it is always a question of fashion. Some good bands here are BLOCKHEADS INHUMATE MORTUARY about 15 or so. Our area is good for brutal death metal we live in eastern France near Germany and Belgium.

Q*** one song that got my attention right away is 'putrefying menstruation', I find menstruating women very sexy do you also find this attractive? Have you had more success than me in the quest for a sample of this nectar? Are French women willing to provide?

PINCENT***** in fact we like gore lyrics because we like gore movies. It is not really a fantasy of mine. Just more of a fucking joke. Our next cd cover will be even more gory. French females are females really, they are not interested in our band though, they think we are a mad band but we like it though.

Q**Have you found depravation to be useful in strengthening the love of something or someone? What would you say is the most stupid man made law? Do you believe in natural selection and karma and such things?.

PINCENT***** In fact depravation is a good way of life, fuck those who do not listen to music smoke or drink etc But I think many things, and I am mad with your questions you are a fucking crazy guy and I do not understand very well your questions. In fact I believe in nothing, there is a natural order etc I prefer the hermit law

Q**do French people really hold the bread under their arms and bicycle through the countryside? Have you ever eaten cheese in it

in its maggotized stage?. Do you enjoy wine with your meals?.

PINCENT*** Im like my country we are the more experimental in sex (joke to your sister) I like cheese with bread, wine (red and white) I like comic, comics and porno and football so I am not all that different.

Q** Thanks for your time with the stupid interview. I know the questions were dumb but I feel dumb today close this up with any last words, you rule man keep it sick....

PINCENT***** Your interview was stupid but I like that. If you come to France do not stay at my place I do not want you to fuck my fish, Thanks and take care and fuck the Queen all intcbrutal death grind and gore write me

This Brazillian band is set to release their debut demo and by all accounts this band is worth your while as a fan, a lot of great shit can be heard from Brazil now and like Czech REP , I think their scene will co dominate the planet, so here goes.....

Q**You say the lyrics deal with real life, how much of them come from yourself and experiences? Would you say that you have had a hard life? Are you stronger for it?

DEERSON***** Yeah they really deal with it, We never experienced any of the situations which are described in the lyrical purpose of KARNAL EXPERIENCES but most of the things are really interesting to us, Stuff as premature burial and spontaneous human combustion etc. I do not know what kind of life is hard for you but I would not say that I have had a hard life I only fight for what I need along with my entire family we live a good life but are not rich.

Q**What do you do outside of the band for a living?. Have you done much travelling outside of Brazil?. Do you find it harder to promote your band there? How are labels and promoters?. Honestly now do you ever wish to live the good life, like come offstage, have 3 or 4 women shower with you, the limos etc?

EDERSON**** I work in an office everyday to pay my needs. Rafael works in an office too. Filipe only studies and Luis also works in an office. I went to Paraguay once when I was 13 to bring "Mumba" Rafael went to Argentina when he was 12 and Luis went to the USA when he was 9. It is real hard to promote a death metal band here Labels are non existent for death metal bands, There are good promoters here for the underground like Naoalm from the brother o Alex Sancturium it is a competent and very pro distributor there are a lot of it in our underground I am sending you flyers. About the last question the luxury of it all does not impress me, but the women are a good call I would like to take a lot of showers with them while listening to MORTICIAN

Q**

Q** I know this a short interview but I still hope in some small way it can generate some further interest in your band please end this now with any final words or comments on anything now and also please plug your band to the fullest extent now.

EDERSON****W e would like to thank PERNICIOUS for the interview, People who are reading this now are urged to write to us, we would be very happy to hear from all of you. As always with us no rip offs and all letters are answered.

NUCLEAR ABOMINATIONS MAGAZINE Issue #1 is out, oh, yesss!!!

It really took a while, but at last I have made it! Nuclear Abomination's embryo degenerated in 60 pages of blood and intensity and luridness. As I cherish in Cruelty, Coarseness, Sanguinary Brutality, and the look of glistening em- whacked into puddings and acid melted stumps, I hope to have selected some shards of extreme art and music to satisfy most perverse Horror-Gore films, tattoos, dark-bearded RPGs, splatterpunk literature, comic books and sincere B-Death-Grind-sicko-crust-mince-extreme and perverse metal and core.

#1 features about 300 reviews from worldwide underworld music, from Bestial Death/Grind down other, less worthy styles (but less...). Plus bios, news and sidebars about tattoos, fantasy books, a report on splatterpunk librarians and movies, comics, porn films, 'zines, aside of course: very long thoroughly complete interviews with Invasion rec., Cryptic Soul prod., AUTUMN LEAVES, CANNIE CORPSE, CORPSEVOMIT, CLOTTED SYMMETRICAL SEXUAL ORGAN, DYING FLESH GRIND, IMMOLATION, IMPERIAL FOETICIDE, INSATANITY, MUCUS MEMBRANE, NASUM/Grindwork prod., TANATHOLOGIST (Ex-NECROBESTIALITY), REGITATION, REINCARNATION, ROTTING FLESH.

Provided you're into NEANDERTHAL BRUTAL DEATH-GRIND, Synthetic Unhuman Cyber-Indus Noise, Mystical Cabalistic, Spreehilling Black Metal, Atmospheric-etheral-windlulled-dreaming Dungeon... Good reasoning, judicious sociopolitically involved Hate-hard-core and Crust, your stuff will be honestly reviewed with a free copy of the 'zine.

Next number will comprise a sidebar more with beer reviews, written by the greatest beer-expert of Italy. (Whose beer-house symbol is Lhoela of TAN-KARD!). Bands into underground, gore, bloodsoaking, bad taste, porn or sickening Death send promo stuff and bios for sure reply (No IRC shit required for such bands). Every letter will be surely replied, every demo reviewed in NUCLEAR ABOMINATION #2. Distro and tapetrading assured for small amounts. 'Zines send issues for review and trade (1:1), distros ask for wholesale prices.

This band epitomizes the term extremely brutal death metal, You will find none of the typical stuff on their masterfully carrion, sculptured demo, you will find heinously heaved sick music. Doing this interview was a great honour, this is one of those bands that you absolutely must check out if you have not already done so.

Q**First of all I must say how much I love this tape, the guitar solos sound schizophrenic, explain what the title @Extreme evolutive trauma@ means to you and if you have ever been in such a state, /.

ROBLES***** The leads are extremely speedy and technical, just like the band's sound. About the title, it represents all things that the band has gone through, and all we are. For example the first time that someone listens to the tape is @extreme trauma@ while for us it is an @evolution@ in the death metal concept.. We have really suffered this evolutive trauma because when I first joined MENTAL HORROR, we did not have good musicians to deal with the schizophrenic leads. Months passed and from one month to another things radically changed, not just the musicians but the sound too. So, after 6 dedicated months we released our first demo, which has good sound and has a good response from true speed death worshippers worldwide. We now have 6 more songs which are more technical, fast and still definitely within our style.. We are serious musicians that constantly rehearse and I think that shows in our live shows also.

Q**Where did you learn English? Is it a subject in schools?. Has music helped you with this at all?. I know nothing about Brazil, how far is Porto Alegre from the capital? Is crime and poverty as bad over there as the news makes it to be? Do you ever get really fed up sometimes and wish to just move away from everything and everyone?.

roble: ha ha I did not learn English, I do what I can and there is a friend who helps me. I have got some from school it is a

subject in high school here, but I did not pay much attention. I forgot a lot of stuff and now I miss English to help promote my band. The vocalist Claudio knows more English than me, I do not know how far POA is from the capital, but it is 22 hours by bus, the last gig we did there took us 25 hours. POA is the capital of the southern state of Brazil, from here to Buenos Aires is the same distance of SAo Paulo. I cannot compare the crimes that are committed here to the outsiders because I have never been overseas but, I asked someone who lived in New Jersey for 10 years and was told that it was the same. I guess that in your country there is twice as much crime. The same for the underground audience I think. But, here you see people living under bridges, people that are homeless and who pick up paper on the street. I have even seen people eating paper. As for living somewhere else it would be easier for the band but, we don't give a damn about what others say we care only about improving our band.

Q** When you die and they perform an autopsy on you what is the most unusual thing they are likely to find?

ROBLES*** I do not know how it would look but I know you will find pure metal running in my veins.

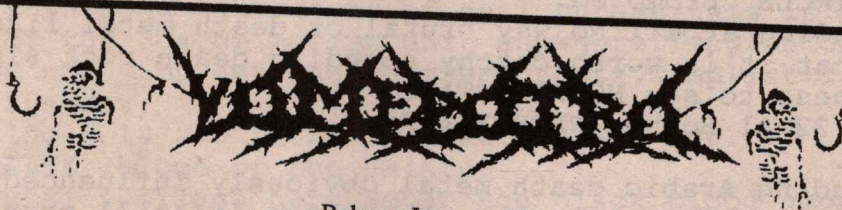

Q** Tell me more of the band do you sell more tapes in USA or Europe. Do Brazilians think of the USA as having a really huge scene? What other South American countries have you been to, how does their scene compare to Brazil?

ROBLES*** I can say that we are far from the evolutionary term, as musicians and as a band, but we chase after this we want more. We have passed about 400 tapes in Brazil and we gave about 300 covers to various labels and distributors. I think the USA has a better scene than here because of better public support and the best studios. We have promoted ourselves extensively here in Canada Europe and of course the USA. I have been to Argentina only once and I was just passing so I do not know too much on their scene, I know that

Chile has a strong scene but I believe Brazil is stronger, but also it is the largest Latin American country.

Q**I truly hope this has been of some help to your mighty band. Here now is your space to say what you wish to the readers and to fully advertise the band. Thanks Robles for the tape and for your time.

ROBLES*** At first place I thank you and all who support the true underground. I would like to say to all that they just have to do all by themselves and not to give a fuck what others think. I would also like to ask all who like truly fast technical brutal death metal to write to me because they will be well received. We accept all trades with bands zines etc, to all those who like MORBID ANGEL, TERRORIZER, DEICIDE, KRISIUN, old CANNIBAL CORPSE etc, to write to me also. ROBLES DRESCH CAVANHA, Rua Visconde de Pelotas, 357 Porto Alegre RS Brazil, 910 530.

Release January, 99

Formed in '96 by Mauro M. (bass), Ricardo P. (Guitars), André M. (Drums) and João P. (vocals).

Influenced by extreme Death Metal, Vomepotro has as purpose to play a brutal, fast and aggressive sound.

Well another superior band from the Slovak Republic, this band carries on the great tradition of combining superb musicianship with gutting abrasions. Bands as this often remind me of early IRON MAIDEN albums for their heavy skill and corrosive traits found within are most certainly comparable.

Q**I was very impressed with the demo, the Czech and Slovak scenes do rule, tell us how it feels to be a part of such an incredible scene?. There is something about the bands you know obviously how to play yet remain so damn brutal.

MARTIN****Exactly as you, I think that our scenes are amazing. People with hearts beating of death metal live here. When taking into account how many bands are present here. Slovak is more oriented to death metal while Czech is more oriented to death/grind. I am very glad that our demo impressed you also the American scene contributed to that fact as we are honest and loyal followers of it.

Q**What would you say PERVERSITY IS WHAT DO YOU THINK IS THE MOST perverse act? If I could go to one street in Slovakia to find the most filthy whores where would I go,

MARTIN***The most perverse act does not exist, Perversity as well as the universe does not know any frontiers it is endless as any normal boundaries do not exist. I think perversity means not only sex but also a pile of other strange feelings wishes and ideas which are unique and weird. In Slovakia you would not encounter many whores in the streets at least on the highways or in brothels. It is a taboo subject here,.

Q**When composing and playing your music, what do you hope to send out to people?. When all the stage lights go out and the day's mail is done, is there a side to Martin that no one knows about???. Have any of your so called friends ever stab you in the back. What was the method of revenge used?.

MARTIN***** Our music and generally this music is for people or else it would be useless. I hope you read our lyrics as there is much to think about. We try to have a loom at every sphere of life Physical or mental pain, problems of the church sex ideas of perversity or murders of a person with a perverse mind. In our private lives we are normal young people who have a job, attend school we are very calm with a sense of humor some friends have tried dirty tricks on us but time is the best healer.

Q** what do you do for a living? Was there ever a point of un certainty in your life?. At what age would you like to die?. Let say that you guys got signed to a good label today, what would be the first thing you would surely do besides getting drunk?.

MARTIN**** We have different jobs, I work in a hotel, Jozef works in the manufacturing industry, Erich is a teacher and Daniel is in the press buisness Erik is a student. We are glad that we are able to earn money because our hand would not be able to do it, As for me I do not remember the situation when I would not be sur about the future. There are many prospectives and possibilities. I do not want to know the age I would die but hope it is not the age of 100. If we had a contract with a great label we would be enormously happy and except the drinking, we would do anything perverse.

Q** Well thanks Martin for the time, tell us now the full info on the band, what is for sale etc. Anything else you want to add this is your space my friend.

MARTIN*** In March or April we hope to have new stuff recorded of course with the new line up Rado on drums, has left and our original drummer from the demo has returned. Thanks for the support Stay brutal.. Our new line up is me Martin on vocals, Dano on drums Jozef on guitar Erik on guitar and Erich on bass

Q** since you have been in the grind scene what are some of the biggest changes you have seen?.Do you find them for the better or worse?.How do you feel about cyber grind and drum machines do you find this genre is getting too expermental?.

EMMANUEL**** I believe the largest change were the big bands like NAPALM DEATH and of course CARCASS.They have changed their s style their ideal and their songs.But,in my opinion at the moment the grind scene is better than the past many organizations bands zines etc,better distribution,many people using the DIY motto. In relation to cyber grind,I think the best thing in grind music is the speed of the drummer when using a machine this is vey easy.However some bands do it well like MORTICIAN.

Q*** do you think there will really be a plague that will once mor ravage mankind?.How about another war,where do you think WW#3 will start?.Do you agree that when man is suddenly faced with the threat of extinction he feels the urge to reproduce?.

EMMANUEL*** in my opinion the war has already began with bombings in the Gulf Iraq etc all these things are the war evey nation has a big arsenal and they will use them.

Q** what is the longest time you have ever held in a shit or piss
Do you rather boxers or briefs?Who in your view is the most
beautiful woman?.

EMMANUEL** everyone has liberty for everything,I try not to do th
those things for health.As for the most beautiful woman there are
so many it is hard to pick one.

Q**How honest are you with yourself?When you look in the mirror
do you feel critical of your actions.If you were asked by METALLICA
to fill in on their South American tour what would you say?.

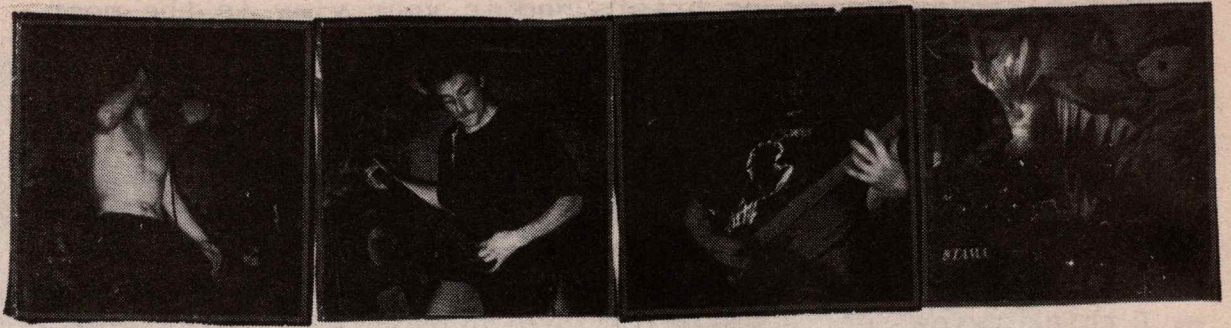

EMMANUEL***** yes everyday I think in my attitudes and descions,
I think twice before making a descion.I liked METALLICA when they
did albums like Ride the lightning and Master of Puppets but I th
think their newer stuff is a lot of shit.If I were to meet them I
Will say nothing much less play for them.

Q**Thanks a lot for the interview I know you are not too familiar
with the english and I appreciate the efforts I hope your band
will gain much luck in the future please end this with final comm
commentys and anything else on your mind again thanks.

HERE is a chat with one of the most savage,bestial,purulent acts out of Belgium,this band specializes in fornicating corpse f fesrerating brutality. Check these guys at once...

Q**I truly enjoyed this demo man,was it easy to complete such a masterpiece?.Were any tracks deleted?.Do all band members instantly agree on which songs make it to the final product? For those who do not know tell us the three basic ingredients for a SERIAL BUTCHER song?.

NICKO*** All of the 5 songs were completed in 7 months,recording and mixing took about 2 days.I write all the lyrics after all the music is written.Because the lyrics are written in a rythmic point of view,I get to analyze the whole song..When I write a song text I always want to describe a horror story and always something I have not done in the past.There were no tracks delete from the demo,we took our 5 newest songs and discussed in which order they would appear on the cd.The 3 basic ingredients for our songs are Brutal lyrics, a low deathgrunt,and, fast drum acceleration,but not too long because even that begins to get boring to hear with no slow parts in it.

Q**"Raped in her own tomb" grabbed me a lot,I found the idea of a son raping his mother s corpse sick,I think it raises some deep psychological questions,Could you ever see yourself sexually attracted to your mother alive or dead?.Name 2 or 3 women in this world that you will never ever fuck?

NICKO**** That song cannot be related to me personally.I think I am really a normal human being that likes to write about quite abnormal things.I am sure there are many others that have thought about such things,for example when your mother was only about 16 or 17 years old.In cases of child abuse also where the kids may retaliate,especially when they are already dead they can have any position they want.Three women I will never fuck are. My mother sister grand mother or daughter,my dog for I do not think she would enjoy it and Pamela Anderson because I cannot find her.However I am working on it.

Q**DO you have the death penalty in Belgium?What is the legal age for women over there. If you could change one thing about Belgium what would it be,What is the one thing you think Belgium has that nowhere has besides the pretty women?.

NICKO*** here the death penalty exists only on paper when you are sentenced to death you usually stay in captivity for xxxx amt of years. This depends on the case and who you know and how much cash you have. The legal age here is 18, but I think 16 would be better.

Belgium has good beer fries and SERIAL BUTCHER
Q** How do you feel about experimentation in death metal? like bands singing about politics and incorpotating other styles into their sound like black metal and keyboards? Is there anything ekse you would like to try with the band do you ever find it hard to constantly keep the ideas fresh and still remain brutal?

NICKO**** I listen to all kinds of stuff, from bands like MASSIVE ATTACK PEARL JAM SUFFOCATION CRYPTOPSY etc, I do not think of myself as being narrow to any one style of music. I think however if you want to play death metal your lyrics should be brutal. I do not think keyboards fit this music as a leading instrument I think it adds nothing extra. I am sure we will grow as songwriters but you can expect no great changes from us. All our music is written by our guitarist he writes it all and is into all styles. He even studies conservatory. I think that when our guitar player gets bored with it he will still be able to find something that is brutal enough to fit within the lyrics and attitude of SERIAL BUTCHER,

Q** Thank you very much for the interview man, I wish you guys the best and please end this chat with your final words and fully advertise your band here...

NICKO**** thanks to every of this interview every metal lover dead or alive or otherwise, IOf you would like a SERIAL BUTCHER demo cd then send \$8 postage paid to us, thanks again to all.

GREAT KAT bloody vivaldi.

I quite liked Kat in the old days and still feel she has a healthy dose of metal running through her self indukgent boastful cyber possessed veins. The industrial mess must go the only thing ruling here is the trademark classical stuff. I really would love to hear stuff like metal messiah again, for now though I will just live in hope and maybe even indulge in a little foot worship?.

TORN ASUNDER In a painful remembrance.

I will admit it, my heart has been broken, I have felt the same way some of the subject matter contained in the lyrics is presented, and if you are human you all can relate to the content herein. I reckon this will do for many what Alanis Morissette did for angry women a few years back. That said, the music here is great, a fuckload of busted condom groove, coming over very much like ETERNAL SUFFERING and PERPETUAL DOOM, stunning catchiness, all these tunes are great, I highly recommend this both for music and for being men enough to admit or expose lost love, But I think it is much easier to think with your head than your heart, saves a lot of grief in the end.

Here is an interview that was supposed to be in the last issue, but due to my address change and other shit I was unable to feature it, however I very apologetically present it now, by now hopefully you should all have a copy of Humans pain.

Q**quite a few bands nowadays sing about genetic mishaps and malformed lab mutations and other futuristic themes, do you think the traditional corpse metal lyrics are dead?. If you could be experimented on what would you like to do, Would you ever donate your genes, DNA etc to science"

MARTIN***** most death metal bands consider satanic visions as a model, YATTERING is different I write about human society, pathology and sick events, brutality in media and in real life. I am not surprised that people often talk of genetic visions strange visions begin series of questions on the X files etc. It fascinates some and some are terrified. I would only donate my organs after my violent death.

Q&*** Excuse my ignorance but is military service mandatory in Poland? Did you ever serve? do you agree with that law? do you think it has changed you for the better or worse?.

MARTIN***** Military service is mandatory in Poland as is education. A lot of youth today try to get unfit for the service they do not want to waste the time which is usually from 1 to 5 years general
I

generally I like military equipment and histories of wars and so on, I was never in the army though and would not like to.

Q***How happy are you thus far with the demos, Was a larger response gained from the promo's?

MARTIN**** The demo 'sick society' was recorded at a poor studio and we were not happy with that one even though we gained many flatterer reviews from zines. We sought better production so we recorded the promo at Selani studio here in Poland this is a famous studio and bands like VADER and CHRIST AGONY have recorded here. Two of our songs 'Taken due' and 'Eyes can see' were featured on the THRASH EM ALL magazine compilation and that has helped us a lot. We have gained a large amount of publicity from the international underground and we have played many shows in Poland.

Q** what is the most popular tv show in Poland from America???? Do Polish people like shows like 'friends' or say for example 'MARTIN?'

MARTIN**** I am not interested in American series and tv shows. I am not a daily tv maniac. Sometimes all I may watch is a great movie. The sense of humor here in Poland is different than in the USA so many people are not satisfied with your tv shows Polish humor is much harder.,

Q** thanks for the interview man the tape sounds killer I wish you guys all the best Keep up the sickness....

MARTIN**** Big thanks for your interesting interview all who are interested in co operating with us getting our music please feel free to do so via Moonlight Music.

here is a one song sampler from a rather coarse sounding band. I liked the song it was emitting some rawness and true metal properties that got my interest peaked. I would like to hear more in order to make a more complete analysis what I have heard I liked so we shall see. This sounds earthy, fed germs zombie raising. not bad at all.

DANNABLE. futuristic trial of mankind

INCARNATED atrocious vermin.

This is the I mean the carcassiatric intestinal coughing release o of 1999. Behold the agonizing liquifying death grind from the 2 heaviest bands on the planet. No trendy shit here, no "I wanna groove more than your band shit" either, ripping assault of DEATH METAL... Damnable are somewhat more technical and Incarnated are just all out brutal, this is the equal of A Stone Cold STEVE AUSTIN, PAUL WRIGHT tag team. Amazing shit.....

DEATH PENALTY. Conviction.

Fuming mad hardcore, Salted throated fist folded assault. Heavy on the groove and larynx, this is a great example of what I envision a good hardcore band to sound like. I do not necessarily like th cd, but I will acknowledge the intensity of which the material is presented and credit he conviction of the musicians.

AOPHIS heliopolis.

Imagine IRON MAIDEN inberd with DEATH mold in the melody of say CALLENISH CIRCLE and you arrive at the cd This actually has it moments and also lags in some places. The good points outweigh the bad and one can easily overlook them and herald another good release from Morbid REC. - address below)

HAEMORRHAGE - Anatomical Inferno

Severe hypoglycermic butchery from the almighty caustic cannibalistic patholigst putryfying sodomy. I loved all this bands stuff and I will say this is some of the strongest shit. A standard has been set and all these copycat Patholigal acts can suck some entrailistic shit, this is the CARCASS of the new Millenium and you all better wake the fuck up and praise them, oh and a date with Maria would not hurt either.

CAUSE FOR ALARM beneath the wheel.

I have heard of this band before and am aware of their legendary status however I am unable to say I enjoy their music. This cd ends up getting the same review say the new Cannibal Corpse would get in a magazine like Rolling Stone. Great for the fans of hardcore, sing along chrouses with a strong political and social outlook. that is all I can say.

CRUCIFIED DAWN

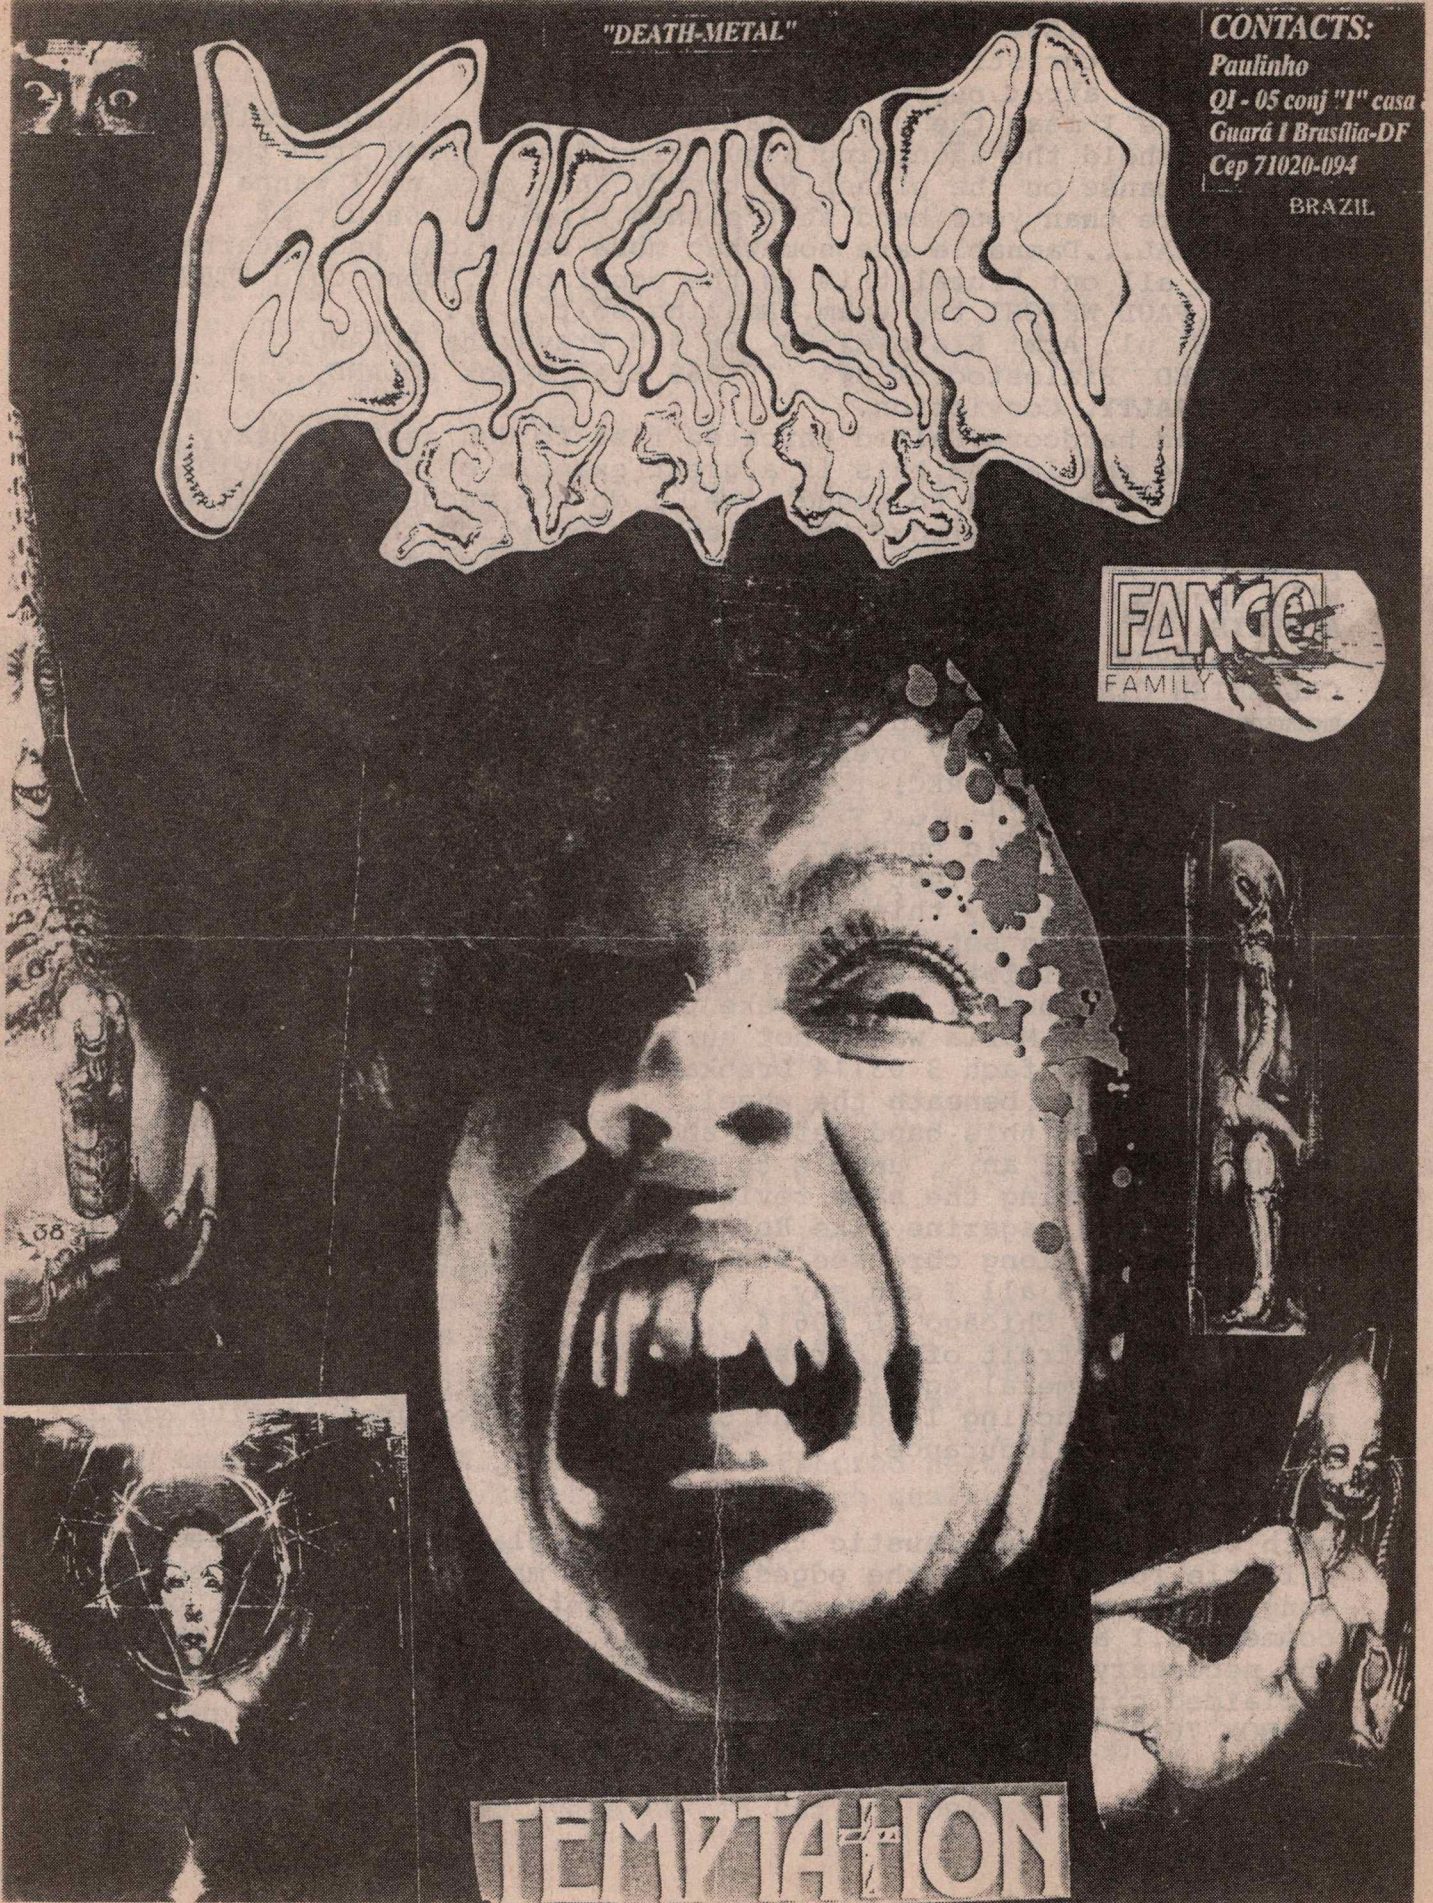

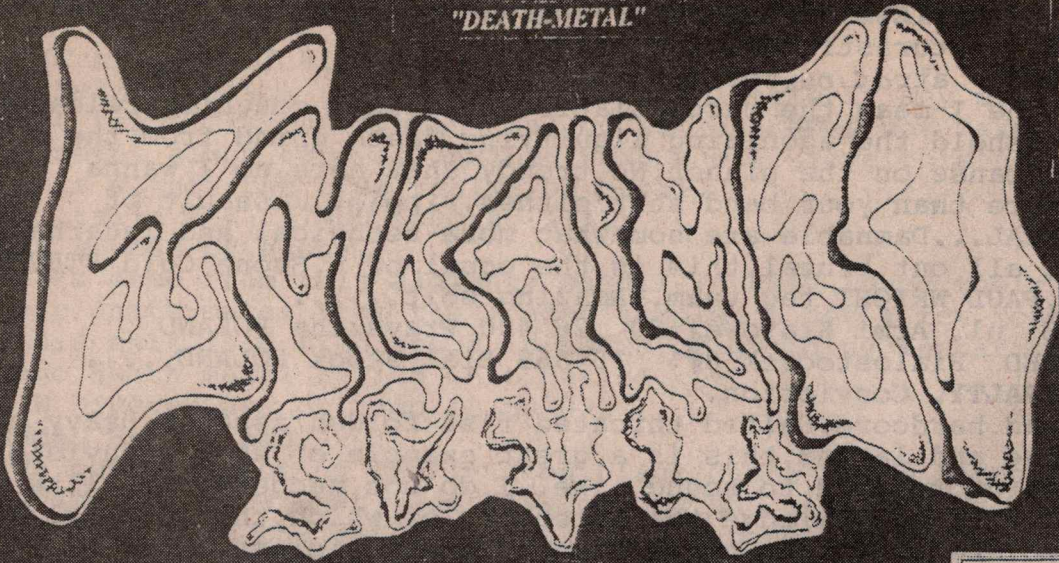

both convulsive and caustic this brand of blackened deat, seems a little rough around the edges but still makes up for with solid song structures and a drive of demonic enthusiasim that must be commended. I am sure by the next releasae this band will have made the necessary adjustments and will assume their place in highly acclaimed circles.
